We take things apart. We **play**. We put things together. We **learn**. We void warranties. We **explore**. We adaptively re-use the built environment. We **help**. We recycle. We rip, we mix, we burn. We **share**. We re-contextualize physical reality. We homestead the noösphere. We kid around. We argue. We discuss. We **teach.** We criticize. We synthesize. We agree. We break. We **make**. We fix. We build. We read. We calculate. We compute. We write. We analyze. We **connect**.

Together

INTERLOCK

R o c h e s t e r

www.interlockroc.org
1115 Main St E Ste. 61
Rochester, NY

Interlock Rochester, a not-for-profit organization, provides a place for its members to develop their personal interests in science, technology, and art in a collaborative, social environment.
